THE AGREEMENT BETWEEN
THE FACULTY OF SOCIAL SCIENCES
UNIVERSITY OF NIJMEGEN
THE NETHERLANDS

AND

THE DEPARTMENT OF SOCIOLOGY AND ANTHROPOLOGY
IOWA STATE UNIVERSITY
AMES, IOWA
UNITED STATES OF AMERICA

The faculty of Social Sciences of the University of Nijmegen and the Department of Sociology and Anthropology of Iowa State University, recognizing the value of cooperation in research and training, propose this general agreement as a step toward the development of a lasting relationship. This agreement would enable researchers of the two institutions to carry out scientific studies in each other's society and cooperate in data analysis and publications. Graduate students are enabled to follow courses at both universities to obtain their degrees.

1. Exchange of Scholars. We agree to facilitate short term exchanges of faculty and staff. These exchanges will involve working on research projects, giving seminars, and learning about the activities of the host institution. Each party will be responsible for round trip travel expenses of their own personnel. Costs of visiting scholars will be negotiated on a case by case basis.

2. Exchange of students. We agree to facilitate exchanges of graduate students. This may involve students from the Faculty of Social Sciences of the University of Nijmegen to follow courses or gather data at Iowa State University for use in obtaining their advanced degrees in sociology or psychology. Students from the Department of Sociology and Anthropology at Iowa State University may go to the Sociology and Psychology sections of the Nijmegen Faculty of Social Sciences to gather data for use in obtaining their advanced degrees. Each institution will abide its own admission requirements. Costs of visiting students will be negotiated on a case-by-case basis.

3. Collaboration on research. These exchanges may lead to small scale joint research projects in the fields of sociology, social psychology, and cultural psychology. We agree to explore the possibility of conducting joint research making use of large scale surveys in both countries. Because of the interests of the institutions, the area of focus will be small or large scale survey research of collective values and attitudes with respect to ethnic and intergroup relations, politics, religion, education and labor. Expertise in the field of survey methodology will be shared as much as possible.

Proposals for activities under this agreement must be submitted in writing to and approved by both the Faculty of Social Sciences and the representative of the Department of Sociology and Anthropology. Proposals for activities must specify the plan of work and budget, stating which parties are responsible for each budget item.

This agreement is entered into for a period of five years with renewal by mutual consent. Each party may terminate the agreement at one year's notice.
